ABOUT KIET DEEMED TO BE UNIVERSITY

Established in 1998, KIET has built over 26 years of reputation for academic excellence and professional growth. Today, we have entered a new era as a Deemed to be University, a status that reflects our commitment to high-quality education and national impact. With a community of over 10,000+ students and 400+ distinguished faculty, KIET is now a hub where tradition meets the fast-passed demands, of the modern world. Our NAAC A+ accreditation and consistent NIRF rankings (Rank 71 in Pharmacy, 151-200 in Engineering and Innovation Rank Band (11-50) serve as a global badge of trust for students and recruiter alike. All the eligible programmes are NBA accredited, The Institute also boasts a QSI-GAUGE Diamond rating and recognition as a Scientific and Industrial Research Organizaition (SIRO) by DSIR.

Our Technology Business Incubator (TBI) has supported 200+ startups, while the University's Innovation Council cultivates creativity and entrepreneurship on campus.

ABOUT Vijñāna Parishad of India (VPI)

Dr. R. C. Singh Chandel (Orai) with the inspiration of Dr. B. B. Lal (Principal), founded Vijñāna Parishad of India (Society for Application of Mathematics) with its Head Office at D. V. Postgraduate College (Bundelkhand Univesity), Orai, U.P., India in 1971, with a vision of making it a society of International repute dedicated to the Applications of Mathematics in all fields of Science and Technology. Later Prof. H. M. Srivastava (Victoria, Canada) and Late Prof. J. N. Kapur (Kanpur/Delhi) joined hands with Dr. Chandel and took this society to new heights. Vijñāna Parishad of India has a crucial role to play because it is the only society in India explicitly devoted to this goal. VPI is one of the five Indian Societies which have a Reciprocity Agreement with AMS.

ICFST-26 is the 9th International and 28th National conference of Vijñāna Parishad of India.

ABOUT THE CONFERENCE

The **International Conference on Frontiers of Science and Technology (ICFST-26)** aims to provide a global platform for academicians, researchers, industry professionals, entrepreneurs, investors, innovators, and students to exchange knowledge, foster interdisciplinary collaboration, and translate scientific research into innovative, scalable, and socially relevant solutions.

In the **global context**, ICFST-26 seeks to address the rapidly evolving convergence of science, technology, and entrepreneurship. The conference will focus on emerging and transformative areas including **Artificial Intelligence, Quantum Computing, Biotechnology, Machine Learning, Internet of Things, Blockchain, Cyber-Physical Systems, and Sustainable Technologies**. It aims to promote interdisciplinary research and responsible innovation while addressing global challenges related to sustainability, healthcare, climate change, energy, digital transformation, and inclusive development. The conference will also strengthen international academic and industry collaborations and facilitate the exchange of emerging research, technologies, and best practices.

In the **national context**, ICFST-26 aligns with India's growing emphasis on **research and development, innovation, entrepreneurship, intellectual property creation, technology transfer, indigenous technology, and Atmanirbhar Bharat**. The conference will encourage researchers and innovators to move beyond conventional publication-oriented research towards the development of **patents, prototypes, technologies, startups, and commercially viable products**. It will provide opportunities for interaction among universities, research institutions, industries, startups, investors, and other stakeholders, thereby strengthening the research-to-innovation and academia-to-industry ecosystem.

A distinctive objective of ICFST-26 is to promote the philosophy of **"Publish, Patent and Productise"**, recognizing that impactful research can extend from scholarly publications to intellectual property, working prototypes, technology commercialization, and startup creation. Dedicated technical sessions, keynote lectures, panel discussions, startup showcases, investor and industry interactions, and a product exhibition will facilitate the transformation of promising ideas from **laboratory to real-world application**.

Overall, ICFST-26 seeks to nurture a culture of innovation, entrepreneurship, and collaboration, empower young researchers and scientist-entrepreneurs, and contribute to the development of knowledge-driven technologies capable of creating sustainable economic and societal impact at both national and global levels.

CALL FOR PAPERS

The conference will focus on high quality research and industrial papers on theory, design and implementation of the emerging science and technology, including all the interdisciplinary areas under the following major disciplines, but it is not limited to:

- Artificial Intelligence, Machine Learning & Intelligent Systems
- Signal, Image Processing & Computational Intelligence
- Quantum Science, Information & Advanced Computing
- Energy, Environmental Science & Sustainable Technologies
- Advanced Engineering, Smart & Autonomous Systems
- Data Science, Networks, Cybersecurity & Emerging Digital Technologies
- Mathematical Modeling, Computational Science & Optimization
- Advanced Physics, Semiconductors, Photonics & Materials
- Biosciences, Biotechnology & Computational Healthcare
- Digital, Technical & Global Communication

GUIDELINES FOR SUBMISSION OF MANUSCRIPTS

Authors are requested to submit original paper according to the format given on the conference website. It should be submitted through email on the mail id: icfst.as@kiet.edu. The paper should not have been submitted/ sent for publication or presented in any journal/ conference/ seminar elsewhere. The corresponding author must certify that all the data presented in his/her manuscript has been acquired in keeping with recognised ethical research practices. Once manuscript id is assigned, kindly send your camera-ready manuscript by the name of manuscript id assigned to your paper. Selected high- quality papers presented in the conference will be recommended for publication in SCOPUS indexed proceedings.
