Celebration@KIET

Commemoration of patriotism and the nation's accomplishments at KIET Campus

KIET Group of Institutions celebrated the '77th Independence Day' with grandeur and majesty on 15th August 2023. **Shaurya Chakra Awardee, Sub. Ganesh Nath ji** and his wife graced the occasion as our Honored Chief Guest, igniting pride and reverence. The occasion gained further radiance as the institution acknowledged & felicitated the services and dedication of its S-Band (IVth Class) staff during the event. The distinguished KIET management members, **Shri G.D. Jain** and **Shri A. N. Gupta**, also graced the occasion with their presence.

As India achieved a significant milestone with the **Chandrayaan-3** lunar landing, the KIET Group of Institutions proudly joined in the commemoration. A livestream of this event was organized at the campus, where KIETians shared in the nationwide pride. On 23rd August 2023, KIET campus became a paradise of celebration, witnessing and rejoicing in this momentous achievement.

Events @ KIET

An AICTE-approved eight days **Faculty Development Program (offline mode)** on ‘**Universal Human Values**’ was organized by **Happiness & Cognition Centre** from 31st July 2023 to 7th August 2023, led by esteemed resource persons including **Mr. Moti Chand Yadav**, **Dr. Manishi Mishra** and **Mr. Raghvendra Pratap Singh** of AICTE.

KIET School of Management hosted a talk on ‘**Sustainability and Growth of EV**’ on 29th July 2023. During the session, **Dr. Lalit Singh**, CEO-Teliolabs EV, shared various innovative insights on electric mobility for planetary sustainability.

Vpaksh, the Dramatics Society of KIET, extended its gratitude to the Joint Director, Dean SW, and faculty coordinators for their invaluable support and guidance in the successful execution of ‘**ACT IT OUT 3.0**’.

KIET Group of Institutions fostered teamwork and camaraderie with department-specific ‘**Networking Lunch**’ held at different venues, encouraging collaboration and celebration among its employees.

AS Department

CSIT Department

CSE Department

The Office of Dean IEC commemorated the ‘**World Entrepreneurship Day**’ on 21st August 2023. The day is observed to acknowledge the crucial role entrepreneurs play in propelling economic expansion, innovation, and molding the global business landscape. During the event, Professor & Dean-IEC, **Dr. K.L.A. Khan**, enlightened the audience with his expertise and knowledge. The event was efficiently coordinated by **Dr. Ajay Singh Verma**.

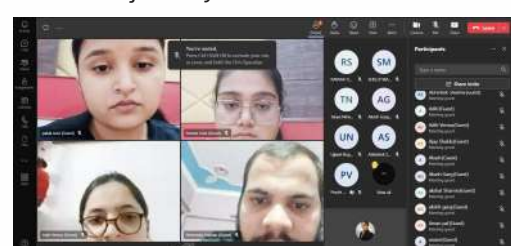

KIET School of Management hosted a session on ‘**Placement Opportunities**’. **Prof. Punjika Rathi**, Placement Coordinator-KSOM, guided MBA first year students of Batch 2023-25 about comprehensive preparation for securing favorable packages in reputable organizations.

Unyielding Determination: The Brooklyn Bridge Saga

The story of the Brooklyn Bridge highlights the journey of two determined engineers. In the year 1883, there lived a highly creative engineer named John Roebling. He conceived the idea of constructing a unique bridge connecting New York with Long Island. Due to its lack of perceived practicality, his idea garnered no consideration or conviction from others. Despite his best efforts to gain authorities' approval, his notion seemed to be in vain. Undeterred by their disapproval, he persevered and didn't give up on his idea.

He shared his idea with his son, Washington A. Roebling, who was also an engineer. Washington was influenced by the idea, and both father and son started working on the project together. After numerous efforts, they finally obtained approval. Unfortunately, a tragic accident struck, threatening to tarnish their dream. The construction journey of the bridge spanned 14 years, marked by the tragic death of Washington's father, John Roebling.

Although John passed away, his dream lived on through his son's indomitable determination. Despite facing personal tragedy, Washington continued the project, even though he was completely bedridden and paralyzed. Only his first finger remained functional, which he used to communicate his thoughts and instructions. He guided the project while lying in bed, conveying his insights through his wife. His wife became the sole means of communication between him and the team of engineers. For thirteen long years, Washington directed the engineers by tapping his finger on his wife's arm. Eventually, the bridge was completed. The remarkable Brooklyn Bridge, which was the world's longest suspension bridge at that time, stands as a testament to the power of determination. The challenges of life and the tragedies they faced did not obstruct their path to realizing their dream.

'A dream does not become reality through magic; it takes sweat, determination, and hard work.' -Colin Powell
