Social Outreach

There is nothing more beautiful than someone who goes out of their way to make life beautiful for others"

The accomplishments of **team Uddeshhya** in February are :

- 1) On 1st of February, one of our college students distributed food in the Ravli Slum.
- 2) On 3rd of February, Team Uddeshhya conducted its Student Induction Programme, where we welcomed our newly recruited members and introduced them to our team.
- 3) On 9th of February, one of our college faculty distributed food in the Rajnagar Slum.
- 4) Under our project "Blood Portal", 6 units of blood were successfully donated to various hospitals in Delhi NCR.

We sincerely appreciate the hard work of our members and volunteers for their involvement in these noble deeds.

How to Get Placed in Top IT Companies

Every fresher's dream is to get placed in a top company. More than 75% of them aspire to be placed in IT industry. Generally, the recruitment process of any top IT company involves 4 rounds and they are as follows:

- Aptitude Test
- Group Discussion
- Technical Interview
- HR Interview

How to clear Online Aptitude Test

The first round of the recruitment process for any top IT company is usually the online aptitude test. There are few techniques you can follow to easily crack this round and to ensure that you get placed in any top IT company.

Practice is the key to success. You will have to regularly practice aptitude questions with the right approach. Learn the approach and practice the question is the key to break the Aptitude round.

Picking the right questions to solve during the exam can make a huge difference. Solve the questions that you are confident about first and then go for the difficult ones that consume a lot of time and involve complex calculations. At the end of the day, you just have to clear the cutoff to get through to the next round. All the questions usually carry the same number of marks and you might end up getting a lot of negative marks if you waste a lot of time on questions that you are not sure of.

Learn the important concepts from C, C++, and Java, even if you aren't from CS/ IT background. All candidates are expected to have at least a basic knowledge of OOPS concepts, DBMS etc as the job on offer involves the application of these fundamental concepts on a daily basis. Take up mock tests and analyze your mock test results. This will help you find out your strengths and weaknesses and it will also help you rectify the mistakes you've made. By taking mocks you will also get accustomed to the exam pattern.

By~ Mr. Shubham Tyagi(Assistant Professor, H&SS Dept.)
