

### From the Desk of KIET Dignitaries

**Prof. (Dr.) Anil Kumar Ahlawat**  
Dean Academics

**What makes an institution great?** I must say the transformational journey of the work practices, its spark and ability to disseminate knowledge with innovative ideas along with the improvement of the quality of life for its people.

With the incessant support of the KIET Management and Faculty, we have already gained momentum as one of the leading institutes nationwide. Our journey does not stop here. We stimulate our faculties to excel in teaching-learning methodology to support our extraordinary disciplinary and interdisciplinary research and educational programs. We also believe in rewarding engagements of our students with faculties so that they may bring out the pearl from the deep ocean of knowledge and research. Similarly, we are excelling the skills of our students through setting up various centres of excellence. I believe that today, a teacher should foster a convergent spirit to see the problem and its solutions through multiple viewpoints and this can only be done by encouraging students to solve complex problems. With our best practices, we will continue to support our faculty who aspire to become great teachers.

We don't grow when things are easy; we grow when we face challenges. So, let's accept challenges and groom our best possible selves.

### Celebration @ KIET

Festivals are an important aspect of our life, and the celebration of festivals at the workplace helps us to make the environment more vibrant and cheerful.

With the same objective, the KIET Group of Institutions celebrated **Holi** at the campus on 16<sup>th</sup> March 2022.

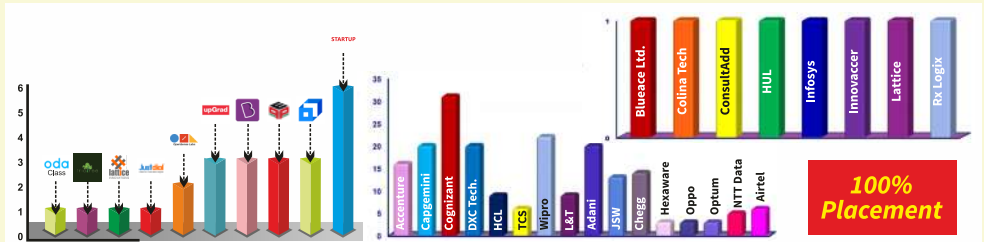

'**Leadership**' and '**Outstanding Contribution**' awards were also felicitated on this occasion to the heads of the different departments and employees.

## Young Faculty Speak

**Ms. Surbhi Vijn**  
Assistant Professor  
(IT-Department)

### Upskilling and Reskilling in the New Normal

Bridging the skill gap and empowering education for future ready practices, reskilling and upskilling have been featured as the most important areas for establishing a strong foundation for an organization. The industrial revolution has shown the progressive change in modern technologies and their demand. Transformational learning in the

education system for sustainability requires a continuous enhancement of skills and the development of innovative ideas to contribute towards research avenues appropriately. The National Education Policy 2020, with its focus on skill development, sets the framework for educational programs, particularly in Higher Education. Thus, upskilling and reskilling strengthen the individual potential and also bridge the academia-industry gaps. Moreover, it also provides more outcome based experiences and increases the productivity of the workforce.

So, We KIETians believe in overhauling the educational pattern by '**analysing, ideating and growing**' in order to meet its goal with **creativity, innovation and excellence**.

## KIET Alumni Section

KIET Alumni Engagement Cell (AEC) & KIET Alumni Association (KAA) collaboratively organized an online **Talent Show** on 12<sup>th</sup> March 2022.

Congratulations to **Mr. Sourabh M Pandey** (KIET Alumnus, 2009-13), Additional Screenplay & Dialogue Writer-*The Kashmir Files*, on the grand success of the movie at the worldwide box office.
