

**Name:** SHREYANSH MOHAN  
**Batch:** Civil Engineering (2008-12)  
**Placed in:** IRS(Indian Revenue Services), 2015 Batch  
Assistant Commissioner, Mumbai

My greetings to you all, especially to those who are associated with this renowned place of learning. I joined KIET in the starting of monsoon of year 2008. Interestingly it was the first batch of civil engineering in KIET. Everybody was having his apprehensions whether even basic facilities could be maintained for running entire batch. That too of a branch like Civil which demands a good set up of survey equipments, concrete testing equipments, structural and transportation engineering lab equipments. But to our utter surprise, within no time, my college established one of the best labs. Here I especially want to acknowledge efforts of Shri Ravindra Gautam Sir who single handed laid the foundation stone of the department. Later our HOD Shri R.P.Singh Sir joined and things started going very smoothly. College appointed two

**DEPARTMENT OF CIVIL ENGINEERING**  
**KIET GROUP OF INSTITUTIONS**

very experienced professors namely Shri R.N.Biswas and Shri Mahendra Prasad sir along with two young teachers Mr. Yasir and Mr. Zargham Rizvi who gave the proper shape to the department. These efforts paved way for strong building with optimum grade mix.

I reckon college days are the most memorable days of one's life because you give shape to your imagination in these days. You are full of energy, idealism, zeal and immaturity. These are the things responsible for not to follow the paths already travelled but to take risks, do something you really cherish.

My college days were full of fun and experiment. In first year, I was a sincere kid who visited all the places of delhi and nearby thanks to a classmate Pawan who happen to be my best friend now. Then comes the second year, we came in our department. Civil engineering was slowly taking us into its grip. Simultaneously we started participating in extracurricular activities like sports competitions, debates, poetry, projects, seminars and ofcourse parties. Actually these things have a vast impact on my personality which I think benefited me in cracking Civil Services examination thrice in a row. In response to the rigorous examination calender of the college, we learnt how to perform well under pressure. Performing under pressure continuously gives confidence to believe in your capabilities. Then it becomes your habit. And as great APJ Abdul Kalam says-“You can't change your future but you can change your habits and surely your habits will change your future.” Third year was a difficult year because till this time, a college student starts thinking about his future endeavours. It creates dilemma whether to choose this path or the other one. I have to thank my professors who at that juncture guided us how to approach the following years.

After six years of passing from the college, I still feel nostalgic about each and everything I had in college days. D-Block and cricket field were two places I could be found if I am not either in my classroom or in my hostel. Overall it's an amazing place to be, to spend your precious four years.

College days are closely related to my decision to pursue for civil services. During the editorship of the college magazine Horizon, I felt 'my horizon' for public service expanded. When I worked as the president of the Civil Engineering Students' Union, I started developing taste of public service.

Overall these events compelled me to keep questioning myself. It could happen because of the conducive environment of my college. Actually you never know how many answers you will need to find the path of life that you truly want to take. So keep questioning and keep working on your answers. Best wishes to you all for your bright future. Go and fly your KITE as high as you want because over there, sky is the limit.

Name:- Mr. Anmol Kochhar

Batch:- Civil Engineering (2011-15)

Placed in: Executive Engineer, Municipal Corporation Gwalior, UADD, MP.

My journey in KIET from 2011-2015 was life changing phase of my life. Exposure of faculties like RN Biswas sir and competitive environment helped me reach where I am today. Proud to be a KIETIAN. The education I received at KIET has helped me a lot to first of all give me an orientation of what I would like to do and secondly the practical approach providing me with valuable information and helping me every day in my career. Now I'm confident to take up challenges, and it's all because of my excellent grooming here. I sincerely appreciate the dedication of the management in student welfare and wish the college to be counted in the list of top engineering college of the world.

Name: Varsha Bisht

Batch: Civil Engineering (2008-12)

Placed in : Assistant Engineer (AE), Uttar Pradesh Irrigation and water resources department.

My four years at KIET have been excellent and memory to cherish for lifetime. The years spent here were full of fun and learning with academics I couldn't have been successful without. I would like to thank the professors of civil engineering department and other faculty members for all the efforts to groom us and make us successful in our professional workplace.

Name: Abhinav Srivastava

Batch: Civil Engineering (2010-2014)

Placed in: Assistant Manager, Coal India Limited (Maharatna PSU)

“The secret of getting ahead is getting started”. I joined Civil Engineering Department of KIET in the year 2010. Joining this college not only gave me a good exposure to academics through series of practical sessions, field visits, industrial training and survey camps, but also to various extracurricular activities which helped me enhancing my overall personal growth. The strong academic curriculum, help and motivation received from the faculty helped me to move higher in my academics carrer. After B.tech, I persued my postgraduation (M.tech) from IIT(BHU), Varanasi (2014-16 batch). The knowledge and skills that I aquired at KIET helped me to excell in my academics during my postgraduation. I got placed at Research & Development Wing of Tata Steel, Jamshedpur as Researcher, having worked there for around two years (2016-2018), I decided to move furthur and Joined Coal India Limited (Maharatna PSU under Ministry of Coal) as Assistant Manager (2018-present).

Today as I step out I feel that all the learning and support that I received at KIET have provided a direction to my proffessional growth. So, I would like to thank KIET for providing the best infrastructure, faculty, cultural and educational facilities for its students to grow and become better individual- A proud KIETian- Abhinav Srivastava (2010-2014).

**DEPARTMENT OF CIVIL ENGINEERING  
KIET GROUP OF INSTITUTIONS**

Name: Abhay Sharma

Batch: Civil Engineering (2008-12)

Placed in: Assistant Executive Engineer (AEE), Rural Water Supply and Sanitation Department, Government of Telangana.

KIET provided me with an educational opportunity and a marketability that is almost unparalleled. The very challenging and highly structured curriculum provided me the strength to face the upcoming challenges of my career and life too. A big thanks to KIET management especially faculty of civil department for the the efforts they put in to shape my future.

Name: Sarika Awasthi

Batch: Civil Engineering (2008-12)

Placed in: Assistant Engineer (AE), PWD, Uttar Pradesh.

The department focuses on development of an individual at all levels. The rich plethora of faculties ensures our students to keep themselves at par with the premier institutes of the state. Civil engineering department aims to nurture the efficiencies of our students and transform them into the responsible and dedicated civil engineers of tomorrow.

Name: - Rachit Gautam

Batch: - Civil Engineering department (2008-12)

Placed in: Assistant Engineer (AE), Uttar Pradesh Irrigation and Water Resources Department.

4 years down the lane was the fantastic experience in KIET .From the first year till last year the college fraternity and management did exceptional job in grooming me for professional workplace. I thank faculty of civil department for putting in all the efforts for making us future warriors. To pursue engineering from KIET was the best decision I ever made. The wide national and international exposure from the best faculty from and outside India from their respective field not only enhanced my knowledge of engineering but made me future ready and of course internship was a cherry on the cake. I realized I was really lucky to have studied from KIET Group of institutions. When I got into job, the knowledge I was having was way too vast.

Name: Aman Sharma

Batch: Civil Engineering (2010-14)

Placed in: WAPCOS Limited ( Mini Ratna PSU)

I joined KIET on 21st August 2010 and stepped out of college as Civil Engineering Graduate in 2014. The education which I received in Civil engineering Department of KIET has enabled me to combine my unique skill set, strong fundamentals in Civil engineering. Apart from being actively involved in technical aspect during my graduation course I was equally involved in various extra co-curricular activities throughout my college journey in KIET. I am also thankful to the Civil Engineering Department which organized survey camp, Industrial Site Visits and Trainings so that students can gain a good amount of Industrial Experience during the course. I got placed in Chaitanya Project Consultancy during campus placements. However, I further decided to continue my Master's and after completing I started working in WAPCOS Limited (Mini Ratna- PSU Under Ministry of Jal Shakti).

As it is said , “ Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime “ so I would like to thank KIET for providing the best infrastructural, cultural and education facilities for its students to grow and become better individual- A proud KIETian- Aman Sharma (2010-2014)

Name:- Navendra Singh

Batch:- Civil Engineering (2008-12)

Placed in: Military Engineering Services (MES), Govt. of India

My journey at KIET has been full of excitement, challenges and learning. It was an environment of great fun, where every day offered the chance to learn something new. At KIET, the focus is on nurturing and enriching the young talents so that they are metamorphosed into efficient and effective engineers. The motto of the college is to make its graduates “industry ready”, and they admirably succeed in their task.

I believe that the experience and learning that I received at KIET will always guide me towards success—in personal as well as professional matters. I found the environment at KIET focused on developing a personality that can take on any challenge, while constantly moving forward. The module design at of Department of Civil engineering KIET is in accordance with requirements of industry, and is reputed for his high standard. On top of that, the curriculum is delivered by dedicated, experienced faculty members who help the students attain a firm foundation before they start their careers.

Name: Bhupender Singh

Batch-: Civil Engineering (2012-16)

Placed in: Director, Maakrishna Meals Pvt. Ltd.

I am Bhupender Singh, Director of Maakrishna Metals Pvt. Ltd., a Manufacturing plant of Aluminium Alloys Ingots. I had my most value addition 4 years of my life in KIET, this value addition was possible just because of my Civil department faculty members and always supporting KIET institution.

KIET is a place full of education, exploration, sports events and cultural events which shape in such a way that today i'm able to manage a well reputed organization. Siddharth Jain sir was always there for me in making my abilities into perfection and he was also there for other students of my batch to help, support and appreciate in every aspect.

Today what i'm is because of my loving parents and excellent & magnificent KIET institution.

Name: Mr. Abhishek Srivastava

Batch: Civil Engineering (2011-2015)

Placed in: Director, STARFUTURE CONSTRUCTION PVT. LTD

I graduated from KIET- CE dept. in 2015, from there , I took admission in IIT Madras through BIS ( Build India Scholarship ). My main field of study was Construction Technology and Management. I did internship on SIGNATURE BRIDGE DELHI during Btech and on RAJAJIPURAM RAILWAY BRIDGE during M.Tech. After completing my Mtech I joined L&T construction company and worked with them for almost two years. From L&T, I gained a lot of experience. I worked on the India's 3rd largest Cable stay bridge, i.e., MANDAVI RIVER CABLE STAY BRIDGE in Goa. I left L&T two years ago and now I have started my own construction company with the name of STARFUTURE CONSTRUCTION PVT. LTD. I want to thank my teachers and especially Siddharth Jain sir for helping me and guiding me to achieve this mark.

Name: Dhruv

Batch: Civil Engineering (2010-14)

Placed in: Sustainability Consultant at Ernst and Young

I started my college journey with KIET in 2010. I always had an inspiration to become a Civil Engineer and KIET gave me the right platform for same. I got all the opportunities and facilities at KIET, one would need to pursue their career path. Being an avid tennis player, I never thought that I would find a great turf in college, but I was surprised to see the sports facilities here. I graduated in 2014 with a degree in Civil Engineering and went on to do master's in environmental engineering from IIT Bombay.

Currently I work as a Sustainability Consultant at Ernst and Young. I am glad I could leverage the opportunities and skills while being at KIET. It made me who I am today.

Name: - Shubham Saxena

Batch: - Civil Engineering (2008-12)

Placed in: Apple Inc.

KIET civil engineering department guided me to tackle down boundaries and helped me bring out best of my capabilities. I thank faculty of civil department and colleagues for putting in all the efforts for making us future stars. From the first year till last year the college fraternity and management did exceptional job in grooming me for professional workplace. KIET provided me a platform due to which today I find myself a more confident person—personally as well as professionally. At KIET, I learnt how to take decisions under all situations, which is something that will definitely help me in the future. Study-wise, I consider KIET group of Institutions as an institution that gives its students a practical outlook into the actual workings of an organization.

Name:- Abdul Rahman

Batch:- Civil Engineering (2013-17)

(M.Tech, NIT Warangal)

I am thankful to all my Teachers and Administration of KIET group of Institutions, whose support were like parents in all the situation throughout my journey at KIET. Taking admission in KIET was a perfect decision for me. KIET provides a great platform for learning. Also helped me to develop a positive attitude towards my life & decision-making capacity in all aspects of my career.

At KIET everything, which is possible is done to make the students life high-quality learning focussed. The quality of the professors gives it a high academic level with their strong industry experience and abilities. KIET Group of Institutions with its Department of civil engineering provides you with the keys to success.

Name:- Adarsh Singh

Batch:- Civil Engineering (2014-18)

(M.Tech , NIT Hamirpur)

The department of Civil Engineering at the KIET, Ghaziabad, is best among its various counterpart in the NCR region. Affiliated to AKTU, department offers B.Tech. Program in Civil Engineering. The department actively promotes curriculum development activities by updating the existing course as per the current industrial scenario, and preparing resource material for teaching. It ensures all-round development of its students through well-equipped laboratories, imparting technical acumen along with theoretical knowledge. It organizes many intra/inter college curricular/co-curricular activities and also encourages its student to participate actively. Several faculty development programs are conducted by the department understanding the role of faculties in student's educational and moral development.
