- * Interactive Session with Parents

February 1, 2019

(10:00 a.m. - 4:00 p.m.)

International Education Awareness Week 2019

It gives us immense pleasure to share that KIET Group of Institutions; Ghaziabad is organizing an "International Education Awareness Week" from 28th January'2019 to 1st February'2019.

KIET Group of Institutions is one of the leading technical institutes in the National Capital Region in the state of Uttar Pradesh. Established in the year 1997 by Krishna Charitable Society at Ghaziabad, the institute has set benchmarks every year and thus growing into an Institution of Excellence in Technical education. The Institute now has over 5500 students on its rolls: a substantial growth since its inception. The college has been consistently maintaining excellent academic results and placements. It offers Under Graduate and Post Graduate level full time Professional Programs as B.Tech., M.Tech., B.Pharm., MCA & MBA. It's approved by AICTE and accredited by NAAC with 'A' Grade.

"Education is our passport to the future, for tomorrow belongs to the people who prepare for it today." "International Education Awareness Week" will be an ideal platform for students to learn about new opportunities in global education and how to avail them. It will help students to learn the fact that studying abroad grants you the opportunity to completely immerse yourself in a new language, and there is no better way to learn than to dive right in. IEAW will also help students of our college in preparing themselves for a global environment by providing them information about International Internships and education openings. It will even promote the exchange of ideas & experiences, related to education, between students and the international university representatives along with strengthening the network between society & educational system of our institute for the benefit of all our students. This week will provide students a platform to clear their doubts regarding admissions and scholarships etc.

Through "International Educational Awareness week" we are trying to create a world of young attendees and participants at our institute. In this whole week we'll be organizing sessions on the following:

- Session on "Why Study abroad?" & GRE/ GMAT
- Sessions by USA/ Canada/UK/N-I
- Sessions on Japanese / German Education + Foreign Languages & exams
- Sessions International internship opportunities (AIESEC/IAESTE)
- Education fair & Interactive session with parents

Our expected footfall for each session would be around 600 and for the education fair it will be 5500-6500. Parents will also be invited for the education fair to get better clarity for their children's career opportunities. This week proposes to produce such outcome that would surely engender young minds and potential Masters Applicants, to discover their dream programme and to get a feel of other suitable study options.

Thanks & Regards,
