

The KIET Group of Institutions, PHDCCI, ICanCare, and Inner Wheel Club jointly organized the National Seminar on "Women Empowerment Against Tobacco Outrage" on March 28, 2023, at PHD House in New Delhi.

Recognizing the significance of protecting women from tobacco outrage and empowering them with knowledge of the various risks associated with tobacco use, Mr. Prajesh Pratap Singh developed a website with the guidance of Dr. Vibhav Kumar Sachan (HoD ECE) and Dr. Pravesh. The goal of the website is to educate individuals about the dangers of tobacco, empower them to make healthier choices, and strengthen capacity building and a supportive community working together towards a common goal.

The website includes features such as enhancing network connections by creating "Tobacco Marshals" nationwide and providing valuable resource materials for Marshals and anyone interested in learning more. Additionally, the website contains blogs and posts designed to educate people about tobacco and its dangers. The website was launched during the event and will be available live soon, thanks to the invaluable support and guidance of Honourable Director Dr. A Garg and Honourable Joint Director Dr. Manoj Goel.
