

Success Stories (ME)

After completing intermediate from a small village of Kushinagar, Uttar Pradesh, I did not know how to become the first engineer of my village. After a lot of search and effort, I got admission in Mechanical Engineering Department at KIET. Faculty members of Mechanical Engineering Department helped me to explore my talent and skills. With the guidance and support of my teachers, I cracked **UPSE IES-2013** during my B.Tech final year with AIR-102 and joined IOFS cadre under OFB in the department of **Defense Production-Ministry of Defense, Govt. of India**. Currently I am working here as Works Manager (Deputy Director). The knowledge, value of discipline, ethics, integrity, human values and scientific temper taught at KIET have always helped me. I always feel proud to be a KIETian.

Mr. Atul Kr. Singh
Batch (2009-13)

Success Stories (ME)

Mr. Prabhakar Pathak
Batch (2009-13)

On the eve of Engineer's Day in 2009, I started my journey as a student of Mechanical Engineering at **KIET**. Being an important phase of life, I got ample opportunities to hone my skills not only in the classroom but also in the Mechanical Workshop which was a second home to me being a part of **SAE KIET**. The support and resources including the infrastructure from faculties, college management, seniors, and batch mates helped me in overall development to face the challenges of the competitive world. **KIET** has taught me to make a balance between academics and extracurricular activities managing time and resources. After qualifying **GATE** in 2013 with **AIR-79**, I joined **Indian Oil Corporation Limited** immediately after B.Tech. Currently, I am working as **Assistant Manager (Engineering)**, posted in Goa since May 2018 after a 5-year stint in Mumbai. Passion for job, values, discipline, and ethics inculcated during Engineering in **KIET** has helped me in a smooth transition from educational institute to a professional career in **IOCL**.

KIET has played a pivotal role in shaping my career and in overall development to face the challenges of the competitive world. The department of Mechanical Engineering at KIET has a gamut of dedicated extra-curricular activities like Designing Software courses, SAE workshop, etc. that encourages the overall development and provide competitive lead to the students during corporate interviews. By virtue of unflinching support from the faculty members, I scored well in GATE, 2013 and got selected in IIT-Kanpur (M.Tech Program), GAIL(India), Maharatna PSU and finally joined India Oil Crop Ltd. in 2013. My gratitude to the entire team of KIET that walked the path with me step-in-step with intuitive zeal and best wishes to My Alma Mater for reaching new heights.

Success Stories (ME)

Mr. Jayendra Mishra
Batch (2009-13)

It was 2011 when my journey as a Mechanical Engineer started in **KIET** I did not know that those 4 years will shape my life to such a great extent. From theory to practical, from Designing to Manufacturing, I learned every aspect of **Mechanical Engineering** from the faculties of KIET that helped me a lot in clearing **UPSC-IES-2016** with AIR-21 and then I got appointed as an officer in **Indian Railways** Currently, I am posted as **ADME-GIM** in **Western Railways**.

I will always feel proud to be a KIETian.

Success Stories (ME)

Mr. Chandan Jaiswal
(Batch - 2010-14)

In 2010 I started my journey as a Mechanical Engineer by getting admission into KIET. Being really confused about my career KIET gave me hope and direction, gave me really good friends, a good circle of colleagues and professors. KIET gave me ample opportunities not only in academics but extra-curricular activities by organising and participating in various events like one by SAE KIET, besides industrial tours and internship are the part and parcel of KIET's culture. KIET also provides good entrepreneurship opportunities if anyone interested in through TBI-KIET. Being a part of mechanical engineering I actively participated in workshops and technical events like SAE efficycle and enjoyed industrial tours. All these things has helped me in nurturing industry related skills and developing leadership skills. My discipline and labour reaped me sweet fruits and in 2014 I qualified GATE with AIR - 873 landed up in IIT Kanpur. As I was really passionate about working in core public sector company, after 6 months stint in IITK I joined National Aluminium Company(NALCO) & currently posted as Deputy Manager in Refinery, Damanjodi, Odisha. All these good things in my life could not have been possible without support of our qualified, compassionate professors and my colleagues and nonetheless the lucrative and competitive environment which KIET provides to its students. Moreover ethics, values and discipline inculcated during my engineering stint in KIET has helped in settling in my current job and has helped me in long run.

Proud to be a KIETIAN.

Success Stories (ME)

Mr. Animesh Gupta
Batch: B.Tech 2008-12

*Deputy Manager,
Transport Aircraft Division of Hindustan
Aeronautics Limited, Kanpur*

As a proud KIET-an, I enjoyed every moment in this prestigious institution of education. The blessings and guidance of learned faculty, The support and resources provided by the college management, the guidance of seniors and wonderful company of batch-mates transformed me into a confident and grown up mechanical engineer prepared to accept any challenge in this professional World.

I took part in various extra-curricular activities. I was honoured to become President of theMexpert Club in my final year. After passing out in the year 2012, I preferred to serve the public sector, Hindustan Aeronautics Limited on 27 Dec. 2012 ignoring the allurements of higher packages in the private sector.

Today, I have been entrusted with the responsibilities as Deputy Manager (Manufacturing - Composites) at Transport Aircraft Division of Hindustan Aeronautics Limited, Kanpur after 8 years of service.

I love and enjoy my job empowered with the knowledge and experience I received in KIET, Ghaziabad. I always dream and believe to leave an impression of my knowledge and experience wherever I work permeating the name of my Alma-mater KIET, Ghaziabad.

Success Stories (ME)

Mr. Vikram Singh
(Batch : 2003-2007)

I started my journey as a student of **Mechanical Engineering** at KIET way back in 2003. The kind of atmosphere KIET provided from the very first day, paved a strong foundation for me to excel in this highly competitive & stressful industrial set up of today.

Concepts learned along with workshop stimulus in all those four years are proving very helpful to me even today. Whether it is reading & understanding drawings, pattern making for castings in manufacturing science, testing material at UTM machines in **Machine design** or learning the heat treatment methods in material science; everything learned at KIET has made me more confident to tackle similar issues in real industrial set up.

After graduating from KIET, I joined **SAIL** as **Management trainee in 2007** & today I am working as AGM (Assistant General Manager) at Planning & Technical Cell of Universal Rail Mill, Bhilai Steel Plant which is famous for manufacturing world's longest rail tracks.

It is not only the technical knowledge but also discipline, ethics and values inculcated by KIET which have established me as a successful professional at SAIL.

Success Stories (ME)

Mr. Rakesh Kr. Singh
(Batch: 2009-2013)

I started my journey as a student of **Mechanical Engineering** at **KIET** in 2009. It was a turning phase of my life, I got a lot of opportunities to develop my skills under the guidance of our first-rate faculty members of **KIET**. The support and resources from faculties, **college management, seniors & friends** helped me in overall development to face the challenges of the competitive world. I have learnt to make a balance between academics and extracurricular activities, managing time and resources in the **KIET** under the effective guidance of our faculty members. The **positive and competitive environment** of the college campus helped me lot to think seriously about my future career. Currently I am working as **Examiner of Patents & Designs**, under the Ministry of commerce and industry, GOI and posted at The Patent Office, Kolkata.

Success Stories (ME)

It is very difficult to tell all of my journey with the KIET but I tried my best to give some of the things that I want to highlight it. Kindly find the below message from my side.

“It was an life-changing experience in KIET. Under the mentor ship of talented faculty and helpful seniors, I got on this exciting journey of machines and joined **SAE KIET**. SAE mad me discover my

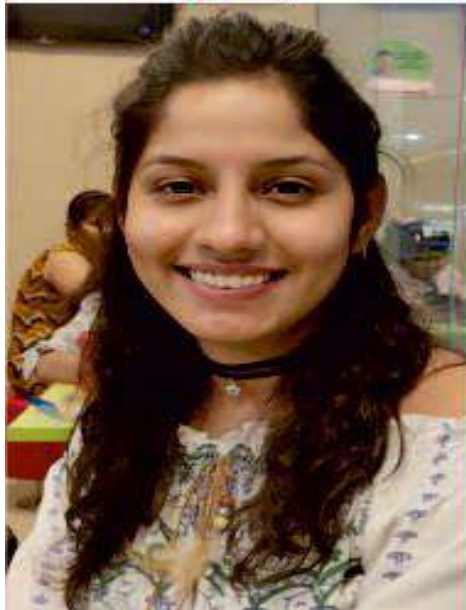

passion to work on machines and then there was no looking back. That's how I decided to join **Merchant Navy**.

KIET helped me get placed in Anglo Eastern Ship Management. Today I am third engineer on merchant naval vessels. I can't thank the college enough for all the guidance and motivation.”

Mr. Aman Bagla

*Third Engineer on Merchant Naval Vessels
Anglo Eastern Ship Management
Batch (2010-14)*

Success Stories (ME)

I have completed my B.tech in Mechanical Engineering from KIET in 2019.

During my final semester, I got placed in HUL and currently working in one of its Soap Manufacturing Unit. I am very grateful to all the faculties of KIET who used to motivate me to be career oriented in life.

4 years of my life in this college added a lot of values. The best part about college was that apart from the structured academics, we had been inspired and motivated to take part in the extra curricular events where we could apply our knowledge.

Ms. Ritu Gupta
Quality Executive at HUL
Batch (2015-19)

Mr. Charanjeet Singh

Batch: 2000-04

Assistant Director - MAMBO

It really gets tough for me to even imagine my pleasure and success without **Krishna Institute of Engineering & Technology** (KIET), Delhi-NCR, Ghaziabad, Uttar Pradesh, the place which has nourished me as an individual and helped me to fulfil my aspiration of experiencing and exploring life in every credible way. The first step towards my new journey of entering the Professional World would not have been so easy without the incredible learning at KIET. The knowledge acquired through books, beyond books, image building, confidence, grooming sessions, all these factors influenced my professional growth in a very positive and effective manner.

After graduating from KIET, I got an opportunity to work with **Shri Ram Pistons Pvt. Ltd.** (through Campus Selection) and currently I am serving **Government of India** as **Assistant Director** with **Ministry of MSME**.

KIET is the place which carries all the colours and essence of developing leaders for tomorrow's world. Thanks to KIET for making me strong and confident, welcoming challenges and seeing off them with accomplishments. I will always remain indebted towards KIET for embedding all the colours of student life in an indelible professional learning for me.

**UPPSC
AE**

I joined KIET in August 2013 in the department of **Mechanical Engineering**. I got an excellent exposure learning environment here. The way of teaching here is very interactive in both classroom as well as in labs. The college provided me good facility in terms of infrastructure, faculty, library and management. The faculty members are very supportive and explain every concept with great dedication and clarity. Besides this, KIET has taught me the value of discipline which further helped me during my preparation journey. Currently I am working as a **Scientist** in **Ministry of New & Renewable Energy** and I also got selected in **UPPSC-AE**. For all this, I want to thank my entire family of KIET.

Thanking you

Ms. Vaishali Sharma

Batch: 2013-17

Assistant Engineer-UPPSC

Success Stories (ME)

Dr. Chetna Chauhan

Batch: 2008-12

Faculty-FORE Institute of Management

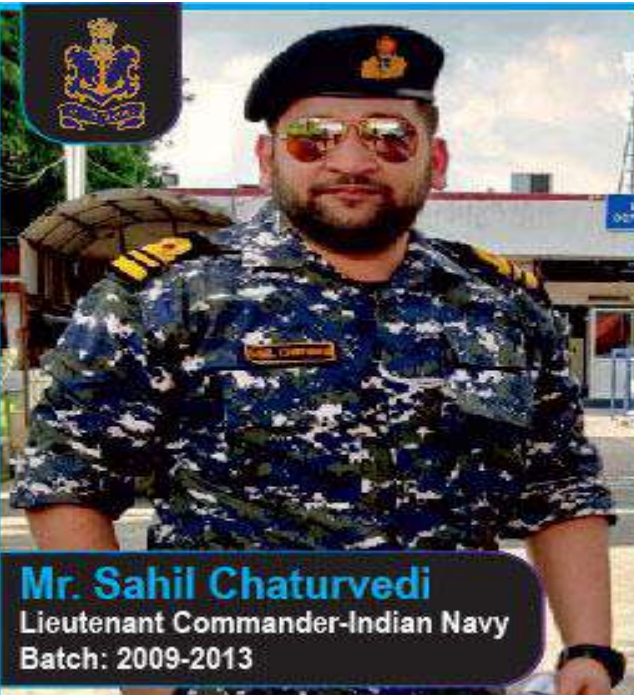

The four years spent at the KIET have been phenomenal in shaping up my personality. I will remain indebted to this institute because of an environment that has been academically enthralling and conducive to peer learning. I joined **B. Tech (Mechanical engineering)** at KIET in 2008, and it was during that time that I came in touch with some of the brilliant minds that includes faculty and students. When I look back, I realize the importance of my undergrad days in shaping up my perspective and helping me figure out my true calling.

I was placed in some of the best companies during my campus placements at KIET. I chose to join **Hindustan Unilever Limited (HUL)** due to my interest in the domain of operations management. The interest in this domain was shaped up by the interactive classroom learning sessions on operations research subject in the B. Tech final year. After working for quite a while with HUL, I decided to pursue further studies in my area of interest. Therefore, I joined as a doctoral candidate at the prestigious **Indian Institute of Management Rohtak** without much anticipation.

As of the present day, I am working as a faculty at **FORE school of management, New Delhi**. My routine includes inspiring **MBA** students to deal with **Real-life Business Problems** and doing research in the domain of operations management. I have been fortunate enough to publish several research papers in highly reputed international journals.

I express my sincere gratitude to KIET for helping me to choose a career where working is a fun activity for me because I am doing things that I love to do.

Success Stories (ME)

Mr. Sahil Chaturvedi

Lieutenant Commander-Indian Navy

Batch: 2009-2013

Engineer's day of 2009 can be termed as one of the most remarkable days of my life since on that day, I set my foot in the premises of KIET and the story has been different since then. Having overcome the dilemma of choosing my engineering stream, I ended up taking the best decision of my life to join as a disciple in the **Mechanical Engineering (ME)** branch at **KIET**. Pursuing my B.Tech. in this branch of this premier institution under the helmsman ship of erstwhile HoD, **Dr. K. P. Tyagi** along with the guidance of stark professors such as **Dr. Sandeep Chhabra**, **Dr. Ajay Singh Verma** to name a few, enabled me to successfully accomplish life targets while concurrently shaping my personality. Knowledge gained thus from these portals benefited me in securing a chance to serve my nation and bagging one of the most prestigious occupations in the country and today I'm proudly serving as a Lieutenant Commander in the **Indian Navy** for the past eight years. The quality of pursuing knowledge relentlessly drilled into me by the college has also led me to enter the education portals once again and presently I'm pursuing my **M.Tech in Industrial Tribology & Maintenance Engineering** from **IIT (Delhi)** and shall be completing my degree in 2022.

Mr. Nikhil Singh
Product Manager
Publicis Sapient
(Batch: 2011-2015)

My Rollercoaster journey began in August 2011 and set of ups and downs came during my 3rd year of **Engineering**. Due to some personal reasons, I could not join my dream company. I felt lost, however, what gave me a kick and support to continue my dreams was my family and friends. I Started focusing on achieving a single milestone at a time. **HODs, faculty members** and especially **Prof. Mr Anurag Gupta of KIET** braced me in these difficult times. After working in the corporate world for three years and having accumulated sufficient organizational knowledge (Worked for clients like **AT&T and British Telecom**). I successfully Belled **CAT**, one of the most prestigious exams for getting into top B-schools and joined the **Indian Institute of Management, Kozhikode (IIMK)**. After joining **IIMK**, I was in constant touch with KIET and got all the documents required by **IIMK** with no hassle. I always believed in smart work and was among the top 20 % of students. I was selected on **academic merit (2/424)** for student exchange to **IMT-BS Paris, France (Financial Times Rank 60)** for one term. Continuing my efforts on similar lines, I will be joining **Publicis Sapient** as **Product Manager** soon.

Ms. Tanya Sinha
(Batch: 2012-2016)

I am brought up in Ballia, U.P. My early education is from Ballia itself. I have pursued B.Tech in Mechanical Engineering from **KIET**, Ghaziabad (2012-16). I have been associated with the IT Industry for the past 3 years, **Tech Mahindra** being my employer. I am a brown belt in karate and an avid kickboxing practitioner. I am a **gold medalist** in National, State, and district Kickboxing championship and also in Inter-IT Kickboxing Championship in Point Sparring event. I aspire to represent India on an international platform someday. **KIET**, as an institution, is one of the fundamental and needless to mention, indispensable chapters of my life. It is more than just another academic institution; say, an idealized version of a multifaceted system.
Proud to be a KIETian.

**Tech
Mahindra**

At the very outset, I would like to express my heartiest thanks to the **KIET** family. I extend my warm regards to the department of **Mechanical Engineering** and the faculty, who helped me a great deal in pursuing my interests and goals. I graduated from **KIET** in **2019** as a Mechanical Engineer and got selected in **Ashok Leyland** through campus placement. I am associated to Automotive Industry from **July'19**. During my graduation, I developed great interest in the field of design & then I got an opportunity to do internship in **Technip FMC** as a **Designer** itself, which considerably enhanced my skills in the area. Apart from studies, I participated in various research conclaves & extra-curricular activities as well, that definitely boosted my team-skills and personality. **KIET** has given me countless opportunities, and the faculty have always been supporting and encouraging. I am proud to be a **KIETian**!

Ms. Saumya Sharma
(Batch : 2015-2019)

I became a member of **KIET** family in **2016** when I joined **B.Tech** in **Department of Mechanical Engineering**. I'm highly indebted to the entire **KIET** family because of their constant support and guidance. I was able to develop my presentation, entrepreneurial & leadership skills. The faculties at **KIET** motivated me to do the things beyond my limits and it helped me to come out of my comfort zone. The **Mechanical Engineering** department gave me a strong foundation level to overcome challenges at different levels. It was the biggest turning point for me when I joined the **KIET Design Club**. By joining this club, I found the management skills within me, later I was nominated as **President of KIET Design Club**. The department has wonderful faculty and staff who are very helpful & co-operative with students. In 2020, I left college with a bucket full of friends, memories, and learnings. In my final semester, I got placed in **Accenture** and currently working at **Becton and Dickinson Company, Gurgaon** (American multinational medical technology) as **Worldwide Supply chain Associate**. Though it was a long way to go still I want to present my gratitude towards **KIET** for making me capable of achieving great heights in my career. I extend my warm regards to my department.

Success Stories (ME)

Mr. Shorya Moona
(Batch: 2010-2014)

Education is not just the ability to learn and remember, but the ability to question and analyze, to utilize this knowledge in the real world to make a positive impact. I always had a keen interest in mechanics and machinery which led me to pursue mechanical engineering at **KIET**. During my engineering degree I wanted to grow holistically, **KIET** just provided me the right platform to sharpen my skills through engagement in academics, workshops, extra-curricular activities, soft skills training with mammoth support and guidance from faculty, friends, seniors and staff members. I am highly grateful to **SAE-KIET** family as well for my overall development professionally and personally. My experience at **KIET** taught me numerous life lessons, including positive attitude, resilience, solution-focused approach, and much more. This helped me securing multiple placements and finally I became the 1st International campus placement awardee since the inception of the institute. This achievement has been an honor for me.

After completion of my degree, I joined **AAF International** in **Dubai** as a **Jr. Applications Engineer** in 2014 and continued working until 2019 when I went to pursue **MBA** from **University of Bath, UK** to gain business and managerial acumen in addition to my technical knowledge. 2020 being an unprecedented year globally due to **COVID** pandemic brought in various challenges however, the experience at **KIET** sprouted the values of conscientiousness & persistence, which are keys in building a successful career, helped me to re-join **AAF International** in **Dubai** as **Asia Applications and Product Engineering Team Leader**. In conclusion, I can truly say that **KIET** offered me the right platform and support that I needed to channel my professional and personal growth. Proud to be a **KIETien**.
