Amendment – 3 Basket System

(Policy for Slow/Average/Advance Learners)

In KIET, 3 Basket System was introduced initially in July 2003and modified in July 2018 with the following criteria:

- Basket 3: Students having Marks less than 40%
- Basket 2: Students having marks between 40% and 60%
- Basket 1: Students having marks greater than 60%

Now, with the change of time there is a need to have the policy of improvement for all three baskets students, as well as psychology of the students has changed so renaming of baskets is also required.
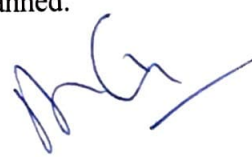

So, in reference to the 3 Basket System, Policy issued on 23rd July 2018 from the Office of Dean Academics, the amendments have been done in the current 3 Basket System Policy which will be effect from 1stFebruary 2020.So, now onwards 3 Basket System will be categorized as:

1. Slow Learners (Students having Marks less than 40%)

- All the slow learners are the responsibility of the subject teacher respectively teaching in particular section. For the same, subject teacher maycall the students personally or in group for teaching/ guiding/counseling in online mode. This enable to attain Zero PCP Policy by improving the performance.

- The department will conduct the special classes for slow learners and will organize two special tests at department level for them to monitor their progress; one after CT2 (containing first 2.5 units) and second after PUEexam (containing remaining 2.5 units).

- The one-mark weightage as bonus marks will be given to those slowlearner students who will get 75% marks as average in special testconducted by department.

- Coding Classes for basic concept understanding can be organized.

2.Average Learners (Students having marks between 40% and 60%)

- Soft Skill Classes/ Competitive Coding Classes/ Certification of various MOOC courses can be planned for skill development and improving overall academic performance.

- Participation in Club Activities (Industrial Electronics and Control Club/ ME Design Club/The Quiz club of KIET/GPAT student's club/E-Yantra/ Marketing Club/ Electric Vehicle Club/ The Material and Metallurgy Testing Club) may be planned.

- Mentors can provide good text books other than reference books written in subject syllabus for better understanding of the subject. This helps in solving analysis problems related to that subject.

3. Advance Learners (Students having marks greater than 60%)

- Special Classes (GATE/GPAT/GRE/CAT/MAT)/ Participation in Coding Competitions (Hackathon/HackerEarth/Hackerrank/GitHub)/ Certification of various advance MOOC courses.

- Participation in Club Activities (SAE India Collegiate Club of KIET/INNOGEEKS/Salesforce Learning@KIET/TBI Incubation lab cum E-Cell/Dinobots/ Pharma Innovation Club/Instronix/SYS-MATIC automation club/Google DSC/Blockchain/ Socio Tech Innovation Club)

- Research Activities including Project Grant/Research Paper Publication/Patent Publication/Working on any real time project may be planned.

- Mentors can provide good text books other than reference books written in subject syllabus to advance learners for better understanding of the subject. This helps in solving analysis problems related to that subject.

Note:*Only students having attendance above 60% are eligible to participate in different club activities, research activities and coding competitions as Average or Advance Learner.*

3 Basket System

(Policy for Students)

Basket System was introduced to improve the performance of the students having trouble in understanding the concepts slowly. Now, with the change of time there is a need to have a policy for enhancing the performance of the students belonging to all the three baskets.

So, in reference to the 3 Basket System introduced in July 2003, few amendments have been done in the current 3 Basket System which will be effect from 23rd July 2018.So, now onwards 3 Basket System will be categorized as:

1. Basket 3 (Students having Marks less than 40%)

- All the students under basket 3 are the responsibility of the subject teacher respectively teaching in particular section. For the same, subject teacher may call the students personally or in group for teaching/ guiding/counseling.

- The department will conduct the special classes to solve the queries and a test can also be taken to improve the performance.

- Question Bank will be provided by the subject teacher for practice.

2.Basket 2(Students having marks between 40% and 60%)

- Soft Skill Classes/ Certification of various MOOC courses can be planned for skill development and improving overall academic performance.

- Mentors can provide good text books other than reference books written in subject syllabus for better understanding of the subject. This helps in solving analysis problems related to that subject.

3. Basket 1 (Students having marks greater than 60%)

- Special Classes (GATE/GPAT/GRE/CAT/MAT)/ Participation in Project Competitions/ Certification of various advance MOOC courses can be planned.

- Mentors can provide good text books other than reference books written in subject syllabus to advance learners for better understanding of the subject. This helps in solving analysis problems related to that subject.
