Dear Abhishek,

Congratulations! You have been admitted to the Master of Data Science program for Fall 2019 at the Illinois Institute of Technology! We join you in celebrating this achievement and hope your time at IIT is filled with personal and professional growth. We're confident you will succeed beyond expectations as an Illinois Tech student and look forward to including you among IIT alumni.

During the application review process, all students are considered for funding. If you have received any funding and/or scholarships, you will receive a notification by email.

Although your application passed our most selective standards, your department has assigned you the following required course(s) in order to best prepare you for your program's rigorous curriculum and academic success:

**CS 401 MATH 332, 474**

In order to finalize your admission, we must receive your financial support documentation and a copy of your passport. Until we receive these items, we cannot issue a SEVIS ID to process your I-20 (or DS-2019). You can upload these documents in the **Decision Status** section of your App Tracker. Once you upload sufficient financials and we process your documents, you will receive your SEVIS ID. Your official admission letter and I-20 (or DS-2019) will be sent by express mail and you will receive the tracking information directly in your App Tracker. If you are from India or China, your package may first be sent to our international offices. Please allow up to two weeks for the creation and shipment of your admission materials.

Once you provide all financial documents, you will then receive your Illinois Tech credentials in a separate email and be able to pay your admission deposit in the MyIIT portal. In the meantime, review your next steps in preparation for classes for information on housing, health forms, payments, orientation, and the academic calendar. Reviewing these next steps will make preparing for graduate school easier, so consider it your Illinois Tech to-do list.

## Education

### Indian Institute of Technology, Madras

Master of Technology - MTech, Construction Technology and Management, CGPA 7.73

2017 - 2019

Activities and Societies: IITM Art of Living Group

The course develops skills of project management and broadens knowledge base of electrical and civil engineering. It builds understanding about the fundamentals of large scale planning and execution and the participation of various stakeholders involved in construction industry. In the first semester my favourite subject has been LEAN Construction. This is about applying principles of LEAN Methodology to a dynamic process, such as construction. In Construction Software Lab in the second semester, we have learned to share information and collaborate across different verticals and time zones. The software tools included Revit, Dynamo, Navisworks, Vico and LumenRT among others. The third semester had Quality and Safety in the industry. We divulged into ISO 9001, identified causes and solutions to health and safety hazards at the workplace, and developed models to implement in the Indian scenario.
